**Software engineer** based in Northeast Syria with 3+ years of experience building and deploying scalable web applications using Next.js, React, and Node.js, im skilled in developing modern user interfaces, backend systems, and managing production infrastructure using Docker, AWS (EC2, S3, ECS), Focused on delivering real-world, maintainable solutions and shipping reliable systems end-to-end.

## Experience

---

### FULL-STACK DEVELOPER - 08/2022 to PRESENT

#### GOVERNMENT SECTOR- Malikiyah/ Syria

- Engineered and maintained multiple full-stack web applications used by **100+ staff members** across departments.
- Optimized data workflows and automated reporting, **reducing manual processing time by ~30%**.
- Implemented responsive UIs and secure REST APIs with user authentication and **role-based access control**.
- Deployed and maintained production systems on **Linux** servers using **Nginx** and **PM2** for process management.
- Containerized applications using Docker and managed deployments on **AWS (EC2, S3, ECS)**, improving scalability and deployment consistency.

### FREELANCE FULL-STACK DEVELOPER - 2024

#### LATCHIN GROUP

- Developed a complete **currency exchange web platform** using **Next.js**, **Node.js**, and **SQLite**.
- Built exchange rate views for internal operations, user authentication, and role-based access.
- Designed a responsive, modern interface with **Tailwind CSS**, ensuring flawless desktop and mobile usability.
- Delivered a production-ready app now actively used by the client and **adopted by two additional branches**, expanding its active user base.

## Projects

---

### Mingle - Social Media Platform

A modern web application built with Next.js, Prisma, and PostgreSQL, designed to replicate the core experience of major social platforms.

- Developed features for posting, commenting, liking, following/unfollowing, and viewing user profiles.
- Built responsive and accessible interfaces using **Tailwind CSS** and **ShadcnUI**, ensuring a clean and consistent user experience.
- Implemented secure authentication and authorization with NextAuth, optimised API performance, and structured database relationships with Prisma ORM.

## Skills

---

- **Languages & Frameworks:** JavaScript, TypeScript, React, Next.js, Node.js, Express.js.
- **Tools & Platforms:** Git, Docker, Nginx, PM2, Linux, AWS (EC2, S3, ECS), Pulumi, GitHub Actions (CI/CD).
- **Databases:** SQLite, SQL Server, MongoDB, PostgreSQL, Prisma ORM.
- **Other:** UI frameworks (Mantine, Shadcn, Tailwind CSS), performance optimisation, and responsive design.

## Education

---

### Computer Systems Engineering - Graduated 2025

CORDOBA PRIVATE UNIVERSITY, QAMISHLI
